

Building Use and Design Committee (B.U.D.)

The BUD Committee is seeking input from interested Temple Beth Or members and staff regarding any new construction that is under consideration. We are interested in identifying areas for building modifications, and their relative importance to you. In addition, we would like to know what you consider to be the most important functionality for the top 5 areas you choose. (For example, if parking were an option, the functionality might include good parking availability during religious school and easy entry and exit during busy times.) Below is a non-exclusive list of potential modifications to our building. You can select from the list or write in additions as the bottom. We are seeking to develop a ranking so we ask that you prioritize your list. Please be sure to include the desired functionality or goals for your top 5 areas.

Please choose up to 5 items from the list below and rank them in order or priority from 1-5 with 1 being the highest priority and 5 being the lowest. You can add to the list if you like but please rank your addition.
